

# CONSERVATION GRANT ENQUIRY FORM

Use this form to provide the Trust with basic information about the repair or conservation work you propose to undertake. Based on this information, the Trust will make a preliminary assessment of the project's eligibility for grant assistance, and will notify you of its intention to visit the property if there is a potential for grant. Following inspection, if the Trust decides that the proposed work is eligible in principle for grant, the appropriate Grant Application Form must then be completed and submitted to the Trust. **Only when the Grant Application Form has been received with all necessary supporting documentation will the project be formally considered for grant assistance by the Trust.**

**Please note: If the proposed work involves more than one owner, this initial enquiry must be submitted with the consent of each proprietor who is liable for that work. It is also important to include preliminary costings at this stage.**

30 Cranworth Street  
Hillhead  
Glasgow G12 8AG
